LONDON, May 6 .- The Standard has the following special despatches: "Vienna, May 5th.—It has been officially announced that the Austrian and Hungarian ministers have come to an agreement on the Austro-Hungarian "Pesth, May 5.—The compromise

will be submitted to Parliament for ratification next week. Count Andrassy at the Cabinet Council said the realization of the vote of credit was urgently required to give the power for speedily concentrating troops on the Transylvanian and Bosnian frontiers.'

A special from Alexandria to the Standard reports that preparations are being made to disembark the Indian troops at Port Said and Suez. Measures are being taken to secure the transit of the English iron-clads,

A special to the Daily News from Alexandria says that Admiral Hornby, with the iron-clads Minotaur, Defiance Black Prince and Pallas, is expected at Port Said Tuesday. The situation is creating great excitement in Egypt. It is generally believed that arrangements have been concluded to land the

Indian troops there.
St. Petersburg, May 5.—The correspondent of the Times telegraphs: It is believed in well informed circles that Count Schouraloff will shortly come to St. Petersburg. The subject of the visit is unknown. It is assumed to be important. Some say that he will not come unless he can bring some definite proposal from the British government. It is known here that the negotiations for the Congress continue. Extreme reserve is maintained.

A despatch to the Times from San Stefano says that nothing has been decided as to the transfer of the Russian headquarters.

The same paper's correspondent at Vienna intimates that England has not abandoned her claim in regard to the submission of the whole treaty, but has almost consented to an exchange of ideas concerning the merits of the treaty, while the Pour Parlers, to find a formula for the Congress, con-

LONDON, May 6 .- A special from Constantinople to the Times, dated May 5th, says: "Sadyk Pasha, President of the Turkish Council, and Minister, and Salvet Pasha, minister of Foreign Affairs, had a long interview with General Todleben yesterday. General Todleben to-day visited Buyukdereh, with his staff, and examined the coast of the Bosphorus as an evidence that nothing stirring is likely to occur for a few

The correspondent of the Times says, Count Andrassy will leave to-day for Styria, on a shooting excursion.

The report in the Times of India, mentioned in these despatches last night, that the expedition will sail for Suez, refers to the expedition that has already sailed.

While the general political situation is unchanged, and the course of negotiations between St. Petersburg and London continues uneventful, there is no lack of important incident at Constantinople.

The Daily News says: Another Palace revolution is threatened. A conspiracy for the overthrow of the Sultan, Abdul Hamid, and the accession of Murad or somebody else, was actually fixed one day last week for the attempt, but fear of a Russian interference caused a change of their plans, and the conspirators say they must wait until the Russians go. It is difficult to say what would be the attitude of the Russians in case of a revolution, but there is great danger that the Russian and Engish troops would come into a collision in such an event. The English influence is now believed to be uppermost in the councils of the Sultan who, between Mr. Layard, the British Ambassador, pulling one way and the Russians the other, has anything but a pleasant time. The majority of Pashas and all of the State ministers are against the Sultan, and the people are sullen and discontented. There have been violent speeches against the tax on bread, which is now at famine prices. The Pashas are all ready to fly at each other's throats. Osman Pasha, for instance, is cursed on all sides by the other Pashas as a fool, and by some as a traitor. Without either English or Russian support the Sultan could not stay on the Throne another day. The Sultan Abdul succeeded Murad, his elder brother, who was deposed August alst. 1876.

The same correspondent says that Sadyk Pasha is certain not to remain Chief of the Ministry long, though it is difficult to see what English influence would gain by his overthrow.

He adds: If it is true, as all the correspondents at the Turkish Capital agree, that the present cabinet manifests British tendencies even more frankly than did their predecessors, such friendly manifestations may be a

blind, however. The Daily News' Constantinople correspondent also says: "I have just heard that the Porte has sent a note to the Powers, maintaining that it cannot evacuate Shumla, Varna and Patoum until the Russians retire, and, scording to the treaty of San Stefano, the surrender of Adriacople. The Russian proposition is, that they cannot withdraw until the Turks evacuate the

In the House of Commons, Sir William Harcourt queried the right of the government to employ Indian troops without the consent of Parliament.

Sir Stafford Northcote defended the act as constitutional, being werely a movement of troops from one part to another part of the empire. The government, he said, did not publish the news, and did not expect it to become public to soon. The government's policy still is to obtain an amicable settlement, but it may be disappointed. It therefore feels that it is its duty to take precautions. The expenses of the Indian troops will be born by the Imperial Exchequer. He also said he appre-hended that they would serve under the Indian mutiny act.

ST. PETERSBURG. May 6 .- The Agence Russe has an article referring to the statement in a St. Petersburg despatch in the London Times for April 29th, that among the concessions Russia would make are the limitation of which are expected at Port Said on the boundaries and the period of the occupation of Bulgaria, the substitution of an European for a Russian Syndicate to consider the claims of the bondholders, as well as Russia's claims for indemnity, and the retrocession of but a small slip of Bessarabia inhabited by Russians.

The Agence Russe observes that the correspondent somewhat exaggerated them, and above all was too specific. The Imperial Cabinet, it says, has showed that it is actuated by a conciliating disposition, provided the object of the war is attained. Count Schouvaloff will probably ar-

Vote on the Tobacco Tax Bill. WASHINGTON, May 5th .- The following is furnished by Col. W. P. Burwell, of Virginia: The vote on the tobacco tax was taken up, and a motion to suspend the rules and put the tobacco tax reduction on its passage to-day. The friends of the bill did not expect to get the 3 vote necessary to suspend the rules, but desired to demonstrate their power to pass it when it came up against it 115. There were absent, Mr. Stevens, of Georgia, Mr. Acklin, Louis iana, Mr. Money, of Mississippi, Mr. Pridemore, of Virginia, and several others who are known to be friendly to the bill. The vote was taken to-day, without any debate, and it was subjected to the great disadvantage of not having these explanations, which would have added to its strength. It was, however, subjected to a further disadvantage in not having the vote taken before it, on the suspense of the sinking fund of 37 millions, which would furnish a margin for any reduction of revenue arising from reducing the rate on tobacco, as well as the Tariff, There were Democrats from Tennessee and Arkansas who voted against it, because it did not go far enough in the interest of the planter. The friends of the measure feel confident of their ability to carry it when it is put on its final passage, by 12 to 15 majority.

Washington that President Hayes has nominated Packard to a foreign mision. After Mr. Hayes' endorsement of Dennis, the Florida forger, and his general conduct towards the perpetrators of the frauds to which he owes his seat in the White House, Mr. Hayes, in making this nomination, is either guilty of singular blindness to the crimes of Packard, or else he does not regard the outrageous deeds of this man in the light in which they are regarded by all honest men. In either case, the President places himself in a shameful, humiliating attitude before the world.

THE municipal elections yesterday in this State demonstrated afresh the power of the Democratic organization to cope successfully with independents, disorganizers and bolters. The regular Democratic tickets everywhere, where the party lines were drawn, was successful. This is one of the happiest signs of the times for the political future of North Carolina. Independents have threatened, and boasted, and been most diligent in endeavoring to create the impression that the Democratic present one or two every month, the party, as an organization, is weakening; that it has lost its pristine vigor; that its internal wrangles, so much magnified by designing persons, would prove fatal. Off for Goldsboro.

The Oak City Blues and Oberlin Vance Guards, colored military commands of our city, leave this morning for Goldsboro. They will take with them the Oak City Band. The strength of the commands will be about 75 men. They will at Goldsboro meet other colored troops, and a grand parade and target practice will be had. An election will also be held for a Lieutenant-Col, and Major of the Fourth Battalion, N. C. S. G. of which these commands form a part. They return on Wednesday, protably.

The next Annual Address before the Alumni Association of Wake Forest College will be delivered by Mr. G. W. Blount, of Wilson, N. C., and not by Judge Lee, as stated in the DAILY NEWS of the 5th.

Sermons from our City Pulpits. Last Sabbath might well be termed a lovely day, the air just slightly tempered by a coolness from the storm of the previous night. With customary de-voutness, at least as far as appearances go, our people wended their way churchward, and once within the sacred edifices were attentive to the remarks of our divines. We give a synopsis of the

> CHRIST CHURCH. The services of the morning were conducted by the Rector, Rev. M. M. Marshall, D. D., assisted by Rt. Rev. Bishop Lyman and Rev. J. E. C. Smedes. The sermon was delivered by the Bishop, who took as a text 1st Peter 1: 3, 4. How great is the mercy and goodness of our God in devising the great scheme for our redemption

mercy of mercies. Thus are we fitted for those heavenly joys for which we are now unfit. The curse of the spiritual death was the punishment for Adam's fall. We can best appreciate our happy future when we reflect upon our fermer awful condition which is our natural state. From the lowest depths we are raised to the loftiest heights. We must have a birth spiritual. The bestowal of this new life is a superadded gift. We were made heirs to its blessings, but we do not attain these at once but must wait for them. We have ever before us a lively hope, one sure of water saloon is one of the most inviting fulfillment. In things earthly all around us is disappoinment. No matter how seemingly secure the foundations of human hopes, they crumble into dust. But those higher ones in the gospel of Jesus Christ are imperishable, unfading, eternal. They are an anchor to the soul, firm and steadfast. The Savior by his resurrection hath begotten us anew, thus triumphing over every effect

FIRST PRESBYTERIAN. The pulpit was occupied by Rev. J. S. Watkins, of Charlotte county, Va., both morning and evening. His text in the morning was from Prov. V: 22. It is very clear that the Scriptures place the responsibility of the loss of the soul on the free action of man's will. God declares that He takes no pleasure in the death of the wicked. The reason they are lost is because they do not choose to be saved in the gospel way. Just in proportion as we enslave ourselves to sin, humanly speaking we preclude the possibility of salvation, Sin is insidious and gradually coils its tendrils around the heart until it deprives it of spiritual life. If our associations are sinful our thoughts and actions must necessarily be unholy. The power of habit will make a sinner holden to his sins. If, when we are first impressed with the awful truths of God's Holy Word, we do not apply them to our hearts and profit by them. the effect willbe to hardem our hearts. Lively influences subside after the causes which produce them are repeated. A failure to apply the truth will kill out all tender sensibilities. It

sinner clearly pointed out. 1st. The character of the Saviour-sinless himself. 2. That though sinless a sin-offering for us: regarded and treated as a sinner. 3d. The design that we might be justified on the ground of what He has done and suffered for us. A ffirmed throughout the Scriptures that our justification rests on perfect righteousness, not our own but anothers, not inherent but imputed, not of man but God. Sin deserves punishment for its own sake. The justice of God calls for the punishment of the sinner. A glorious fact God has punished sin in the person of His own dear Son. Relation of faith to the righteousness of Christ, imputed to us and received by faith alone. No more intellectual or historic belief is saving faith. Saving faith is an act of the whole soul: of the whole man, intellect: will and affections.

In the afternoon the pastor expound-

At the sale not long since of the mines of black lead, 4 miles from the city, the property, some 4,000 acres, was purchased Messrs R. S. Pullen, D. M. Carter and W. H. & R. S. Tucker. These mines have been slightly worked for along time, but in a small way. Speaking of their value, Prof. Emmons says: There are, I believe, no mines on record, whose extent can be compared with those of graphite in Wake. The vein runs from a point 7 miles Northwest of Raleigh, a distance of more than 20 miles, Southwest, and shows no sign of giving out. The quality is fine. The specimens are enclosed in glass jars, and will make an attractive exhibit. The owners of the mines have promised to furnish the State Department of Agriculture with duplicates of these specimens. It is hoped that in the hands of its present owners, the work at this mine may speedily be begun on a large scale, as it would give employment to a number of laborers.
